

June 11, 2020

Implementation of the Deconsolidation Module at Dubai Int'l Airport and Dubai World Central Airport

FROM 15TH JUNE ONWARDS A [DECONSOLIDATION](#) REQUEST MUST BE RAISED, PRIOR TO FLIGHT ARRIVAL, FOR ALL SHIPMENTS THAT ARE TO BE BROKEN DOWN AND STORED AT HOUSE WAYBILL LEVEL.

Please note that implementation date for the booking of import appointments for all requested deconsolidated cargo is now 15th June 2020. The revised date is based on feedback from customers requesting additional time to prepare for the cutover. From 15th June onwards a Deconsolidation Request must be raised, prior to flight arrival, for all shipments that are to be broken down and stored at house waybill level.

This implementation will enable to deliver a more efficient operation with shorter waiting times at the docks. This new process will ensure that your cargo will be available for collection at the dock when you arrive for your appointment, saving you both, time and cost.
